4. *The way of using them.* The P I L L S may either be swallowed down alone, or in the pap of an Apple, or Honey or a stewed Prune, or dissolved in a little Beer, Ale, or Mace-Ale, Wine, or Broth, as they like best, and so taken at night going to bed, without observation of any other order. You may give from half a year old to three years, half a Pill, or a Pill; from three years of Age to ten, one or two Pills: from ten years of age to fifteen give two or three: from 15 to threescore and upwards you may safely give four or five.

The D R Q P S give in Sack, or Ale, or Mace-Ale sweetned, five or ten drops to young Children: from three years old to fifteen give twenty or thirty Drops: from fifteen to threescore and upward, give from a quarter of a spoonful to half a spoonful or more; let them be given at night going to bed: but in Agues two or three hours before the fit, a whole spoonfull.

In using the B A L S A M, anoint therewith morning and night, and apply it also Plaister-wise to the part afflicted.

5. These Family-Pills are of excellent use for all travellers, Seamen, and such persons who live on bad diet, in ill airs, moist places, and near the sea coast, and of such as are given to excessive drinkings, and who cannot attend upon a cure, but are forced to go about their busyness; they may take them to sea with them, (because they keep their vertues many years, nor does the water spoyle them) the which will be found to stand them in great stead in all sea-sickneses, sickly seasons, Calentures, Feavers, Fluxes, Poylons, Agues, Scurvys, Poxes, &c. which commonly afflict such as go to Sea.

6. They give present ease, relief, and comfort, working gently by Urine and stool: they strengthen the body, and agree with all constitutions; thereby curing most cureable diseases, taking away all paines lamentes and inward stoppages: They are an excellent head-purge for all diseases in the head, as heid-ach megrims giddenes and Rheumy Eyes, beyond any medicin ever yet known: and for all such as have spnyled their bodies by heats and colds, or hard-drinking, in their young days; more can scarcely be done by any medicin.

7. They cure the Scurvy, when it is grown so bad, as to become scandalous, so as that many people think it to be the P O X: For the Scurvy often causes great paines in the head and nose, shoulders and shin bones, with other paines all over the whole body, dullnes and lassines, and reddish or blewisch spots and breakings out in the skin, weaknesse in the back and loyns, a bad stomach, and sometimes loss of appetite, loosenesse and sorenesse of the teeth, thrust

throat, and mouth, a discoloured skin, with spots, stains, pimples, morpheu and scurf, and a general weakness, and faintness, all over the whole body, insomuch at last that it gets into the bones, and infects the very marrow of them; this cruel disease these *Family pills* cure at a few times taking.

8. They purge by stool flegm, choler, and melancholy; they dispose old Ulcers, Fistula's, running sores, sore Breasts, sore-eyes, scald heads, Kings-evil sores, tetter, ringworms, salt humours, scabs, or any other breakings out to a speedy healing, by purging away the evil humors which feeds them.

9. They are an excellent help for all risings, Vapors, elongings, stuffings, gnawing or illnesse at the stomach; for such as grow too fat, purse, sweat or spit much, have costive or hot bodies, and for all such as have lost their complexions by the Scurvy, Jaundice, or green-sicknes; such as are overtaken with lingring diseases, growing worse and worse every year than other, with melancholy stoppages in the head and breit, shortnes of breath, and ill digestion, till such time as they fall into dropies, the Jaundice, Hectick feavers or deep Consumptions, lingring and wasting away with dry coughs, wheesings, faint swerts and the like; these my *Family-Pills* carry off all those diseases the right way, by taking them once twice thrice or four times a month.

10. They are the only Pills now used, in the Cure of all the aforesaid diseases, not only in *England*, but in many forrein countries and Kingdoms, being cryed up, and prized above all other medicins whatsoever, insomuch that in some hundreds of families, on most occasions, they are their only Physick; ( and from hence they came to be called *Family-Pills* ) being known to be safe in operation; and certain in the end proposed; for no person curable, troubl'd with any of the aforesaid diseases, hath failed of Cure, who has continued, ( without delaying of time, or taking of other Physick ) the use of these pills according to the directions aforesaid.

11. With these my *Family Pills*, I have cur'd two hundred and twenty Persons of the Scurvy; one hundred and twelve of the Dropie; one hundred Eighty Six of the Green-sicknes; one hundred twenty five of the Evil; one hundred and fourteen of the Headach; ninety seven of Worms; Eighty four of the Jaundice; seventy three of stinking breaths; besides vast numbers of people, ( which come dayly to me ) of most other distempers, with the drops I cured one hundred and thirty of Consumptions; one hundred fourty two of pain and weakness of the back: and I have sold them, and caused them to be given away to above two thousand persons that have had agues, with a promile to all such as bought them, that if they cured them not, they should have their money again.

and yet never heard to this day, that ever they mist the cure of one man, woman, or child, although I have used them upwards of 10 years. By using these pills and drops inwardly, and the balsam outwardly, I have cured above one hundred persons of the Gout, some of which had gon on Crutches above a dozen years.

12. They cure the Gonorrhoea and sharpnesse of Urine, with all manner of Diseases *Venera*, although of many years standing; all ulcers and stoppages in the reines, bladder and womb; they kill all sorts of worms, cause a good appetite and a strong digestion; taking away all swellings from the belly, Thighs, and Legs, being the best remedy known in the world for the Dropy and Gout; taking away all manner of pains from the very bones, when no other means whatsoever will do. They dissolve the Stone, and bring away Slime, Sand, and Gravel causing those to make water plentifully, which could not in many dayes before; this they have done in several hundredes to admiration. Many bed rid, and given over to all appearance, have unexpected met with a cure almost to a miracle; in so much that many learned Physitians, could not but admire at their Vertues.

13. The success and safety of these Pills, have brought them into credit and Estimation, almost through the whole world; forasmuch as they that take these, need not go under long, dangerous and chargable courses of Phyfick, suffer by bad medicines, and be driven time after time from one Physician to another.

14. Where the disease has been of long continuance, a perfect Cure cannot be expected in 5 or 6 tanes taking, in those cases take them in the largest dose, and at least ten, fifteen, or twenty times, as need requires, omitting them sometimes a day or two, as you see cause.

15. They may be taken without confinement to the house, or bed, and without any paine, necessity to take broth or posse drink, or the like with them, as in other Phyfick, but as the patient pleases, being safe and gentle in their operation, and fit to be taken by all persons, from ha f a year old to three score and upwards, at any time and season of the year.
